June

- Different plugins like heatmap
————→ Screenshots of those.

creation

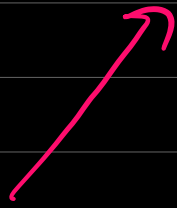

creation

- Today by night
- ① Get writing for poster and behav on paper
 - ② Fully be prepared for poster
 - ③ Graduate watch some videos of question answers
 - ④ Do at least 3 practice of complete to make sure we are able to finish in 30 min

→ complete the script & slides

for final review

- ① Morning read through present notes and go through behaviours, extend
- ② if time go through to posts
- ③

- MIBs - Management info base
- OIDs - object identifiers
 - hierarchical & tree structure type DP.
 - uniquely identify each variable parameter
- Important for SNMP to standardize the output.
